

AD-AL-500D

2 x 500 kg Double Surface Electromagnetic Lock

Product overview

- NF S 61-937
- No mechanical wear
- No residual magnetism
- Permanent power on afterglow: ON
- Fail safe (Door unlocked when power off)
- Monitored
- Recommended for interior use
- Surface Mount
- Breaking capacity: 2 A max.
- High corrosion resistance
- Delivered with armature plate
- Ease of installation
- Potential-free changeover relay contact
- Armature plate dimensions (L x W x D): 185 x 60 x 12 mm
- Power supply: 12-24V dc
- Consumption: 1000 mA @ 12V dc
500 mA @ 24V dc
- Holding force: 2 x 5000 N
- Built-in varistor: Built-in electronic protection to eliminate back EMF
- Dimensions (L x W x D): 539 x 66 x 41 mm
- 2 color LED indicates the status of the device
