

AD-ACCESS

New AD-Access

Access Control Management Solution

As a Professional Access Control Software, AD-Access is designed to manage all ADTRONICS access control panels and standalone access control terminals.

The software can simultaneously manage access control and generate attendance report.

It's a desktop software which is suitable for small and medium businesses application.

The brand new at GUI design and humanized structure of new AD-Access will make your daily management more pleasant and practical.

It allows system supervision: management of users and profiles and traceability of operations.
