

ADTRONICS Wired Led Main Display (4 lines)

Quick Details

Usage: Indoor

Tube Chip Color: Red

Pixel density: 17200dot/square meters

product size: 33.9*33.9cm

color comprise: 1R

Display Function: Graphics

Specification:

F3.75 indoor single color LED display

4 Lines,8 digit(4 Character) in each line,1 Character=2 Digit, total 32Digit(16Character)

in the display screen; Pixel Pitch:7.62mm; Pixel density:17200dot/square meters

Average power consumption \leq 0.3KW/ square meters

maximum power consumption \leq 0.4KW/ square meters

Brightness \geq 500cd/ square meters

pixels comprise:1R

Display text on 1 module:1 Character=2 Digit

Gray scale level:256Level

Display Colors 65536

Time for without failure \geq 50000 hrs

visible angle H:160° V:120°

Continuous display \geq 24 hrs

Lifetime \geq 100,000 hours
